## VAUXHALL Gearbox Identification (also refer to Technical Note 27).

The gearbox reference (F13/F16) is stamped on the top of the bell housing behind/below the distributor

Earlier models may not be marked as shown, but can be identified by the gearbox level/filler plug.

On F13 gearboxes this is positioned on the left hand side, and on F16 gearboxes positioned on the right hand side.

On F17/18 gearboxes the gearstick reverse position is away from the driver. On F23 gearboxes the it is towards the driver.
