CHAIN DRIVE COMPONENTS

**ALL GEARED UP
FOR YOUR SUCCESS.**

 **RUVILLE**
YOUR PARTNER

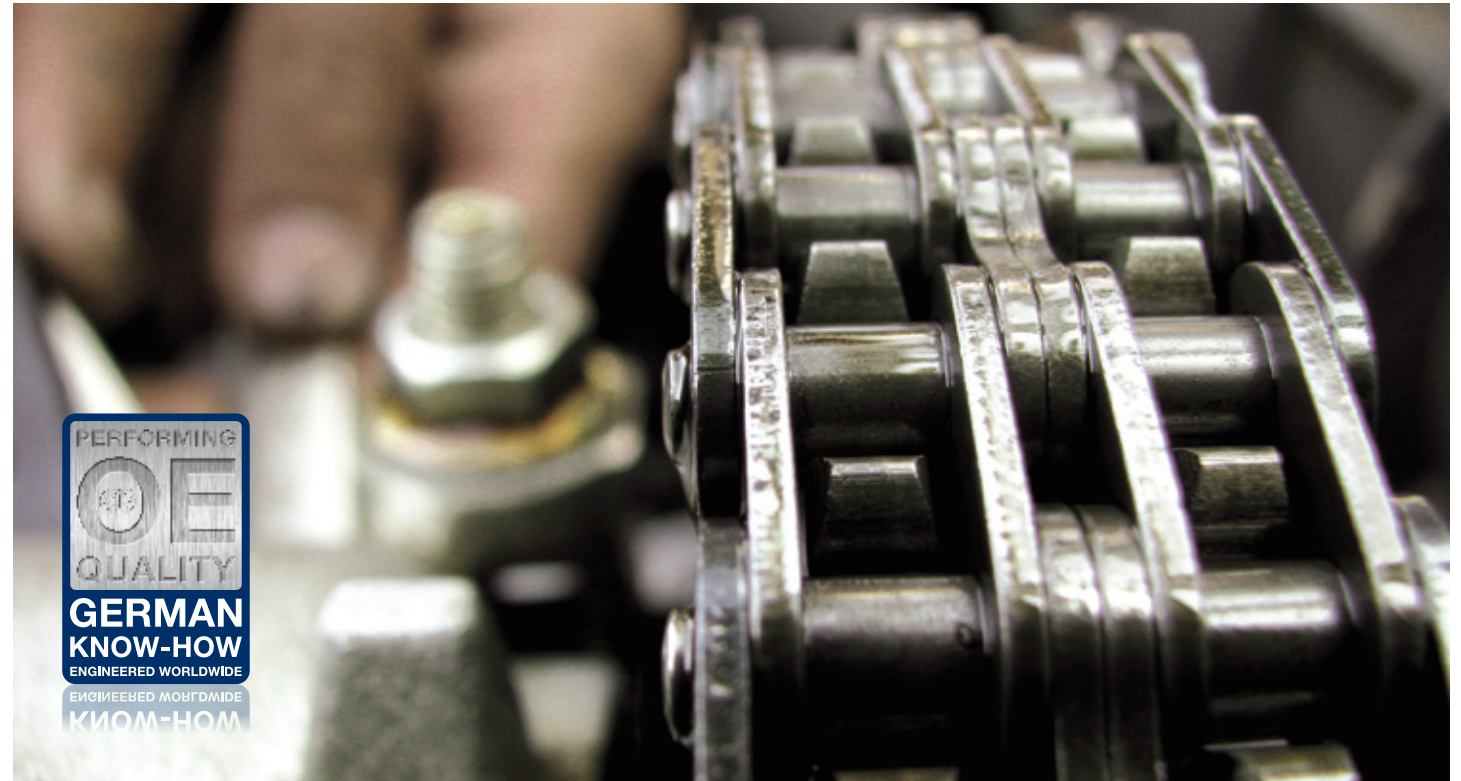

EXPERTISE AND COMPONENTS FROM A SINGLE SOURCE

IT'S NOT ONLY OUR CHAIN DRIVES THAT ARE INTERLINKED.

At RUVILLE, it's not only our chain drives that are perfectly dovetailed. Whether delivery, warehousing, advising or sales: we have what it takes to make all your processes efficient, systematic and streamlined. As a system specialist for engine and chassis technology, we offer you

more than just premium spare parts in OE quality for all common European and Asian vehicles. Backed by our product expertise and high service standards, we develop solutions for optimising business processes in the automotive wholesale, garage and repair shop segments. In addition to quality in line with manufacturer specifications, you can rest assured that our chain drive components and kits come with everything you need for quick, smooth and problem-free installation. After all, time is money.

A NEW STANDARD IN QUALITY

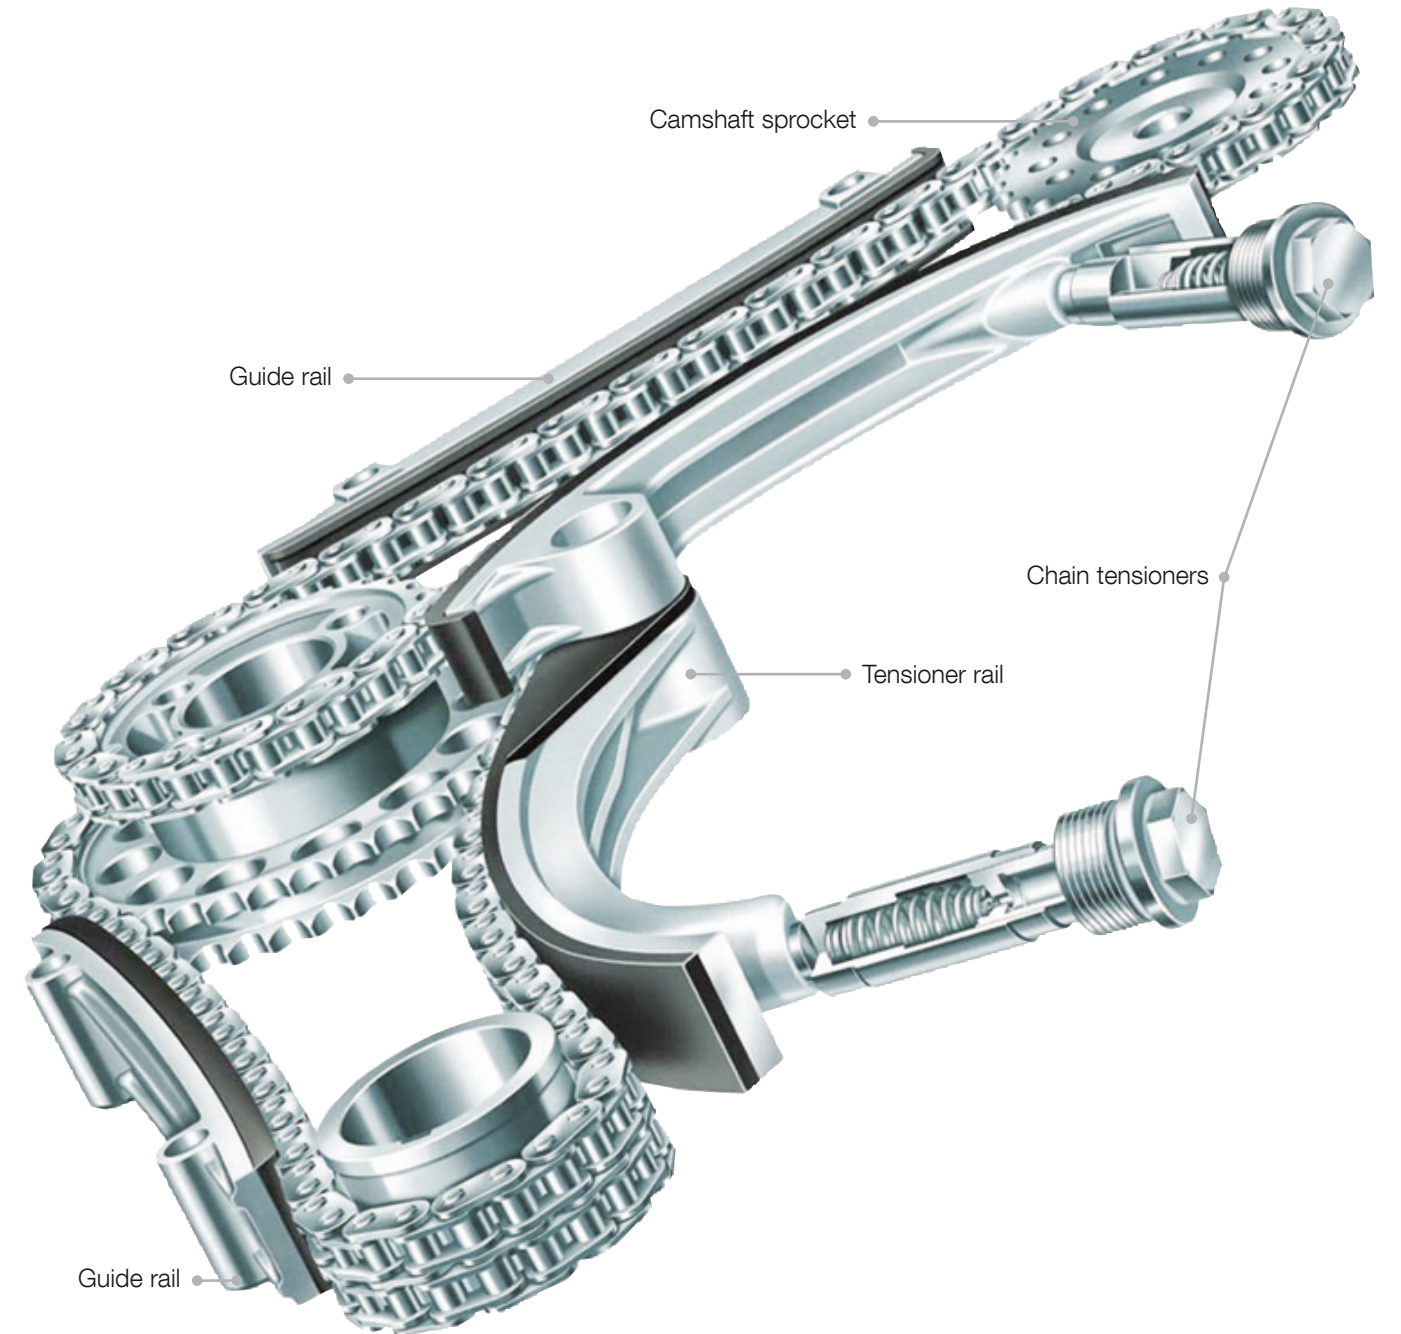

A PERFECT CHAIN DRIVE SYSTEM STARTS WITH A PERFECT PRODUCTION CHAIN.

While engines with chain drives are considered low-maintenance, such systems are still subject to gradual wear and tear. The vibrations and forces occurring in the engine put extreme stress and strain on the materials used in the components and assemblies. Since chain drive components “work behind the scenes”, wear and tear is not always detected during vehicle servicing or inspections, and substantial, costly engine damage is not an uncommon result. Accordingly, any first signs, such as rattling engine noises, should be thoroughly and meticulously examined in order to identify and replace defective components early on.

Prompt replacement of the affected components prevents more serious consequences. Since all components form an integrated, coordinated system and need to ensure smooth interplay, we recommend always replacing the entire system. For this purpose, RUVILLE has developed an extensive range of spare parts, including both intelligent kit solutions and individual components geared towards the requirements of garages and auto repair shops, so that exactly the right solution is available for every repair.

CHAIN DRIVE: AN OVERVIEW.

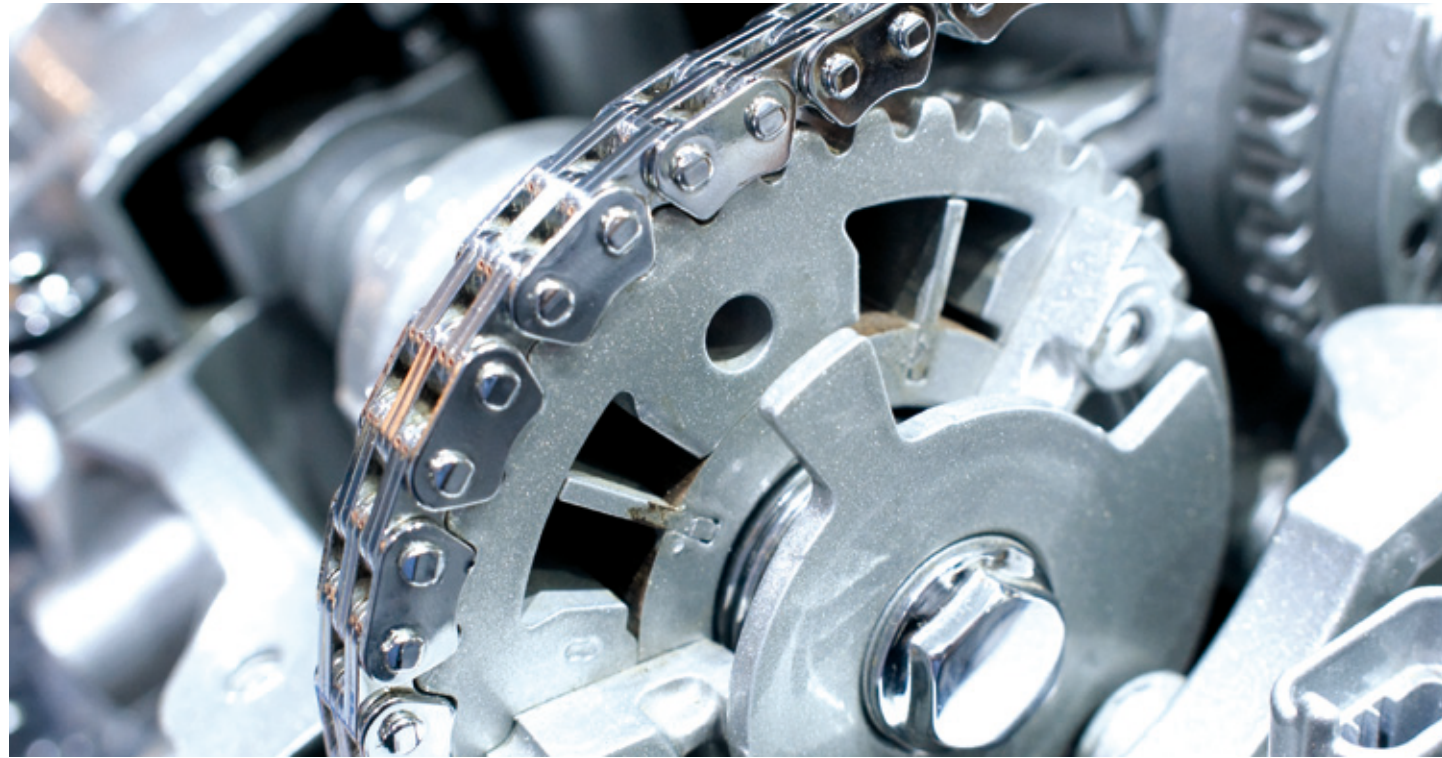

SIMPLY COMPLETE. COMPLETELY SIMPLE

WHEN IT COMES TO CHAIN DRIVE COMPONENTS, WE HAVE A LOT IN STORE.

Our chain drive product range offers the complete assortment for your success:

- Chains
- Tensioner rails
- Slide rails
- Hydraulic tensioners
- Sprockets
- Ready-to-install complete chain drive kits

But variety is only one of the aspects that distinguish our product range. When it comes to ease of installation, our chain drive components are perfectly coordinated with each other thanks to component bundling in line with practical requirements, along with all the necessary accessories. Today, we already offer you complete solutions for a wide range of vehicle models. And we are continuously advancing and expanding our assortment to meet your requirements in the future as well.

OUR KNOW-HOW – YOUR BENEFITS

THE LINKS OF OUR SUCCESS CHAIN AT A GLANCE.

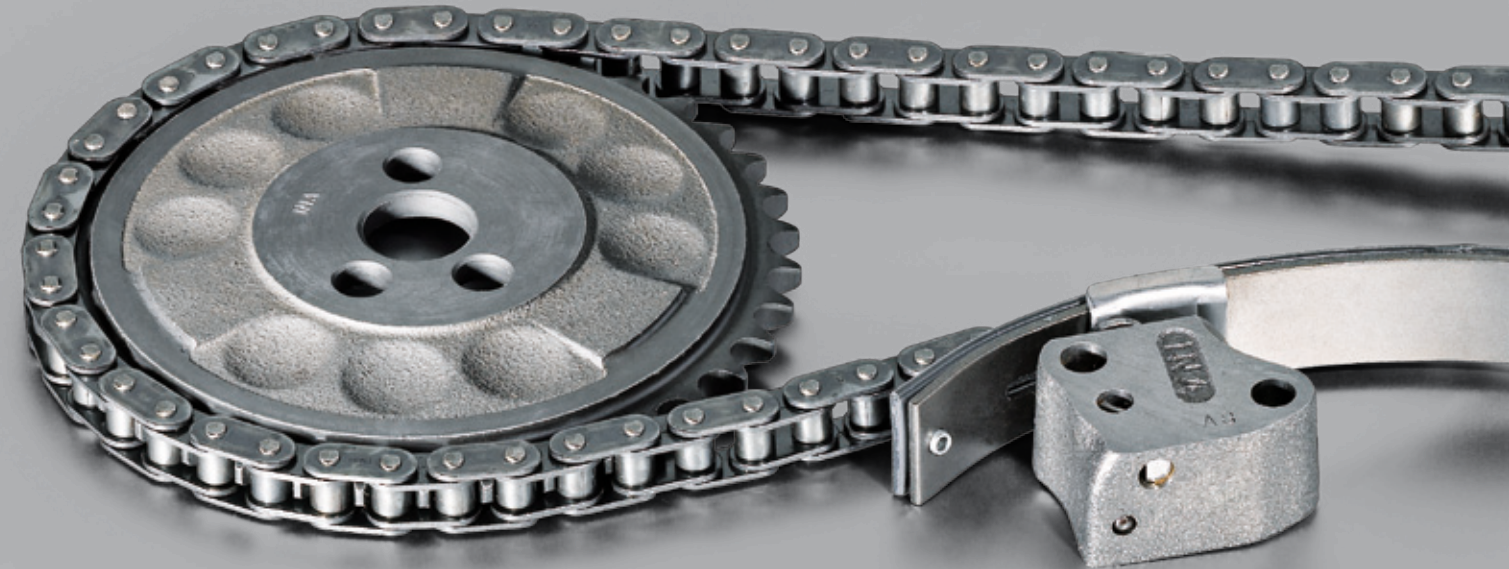

All our kits and components are perfectly coordinated with each other – and offer you and your customers numerous benefits with regard to installation and service:

- All components in OE quality from a single source
- Easy and problem-free allocation, simplified ordering process
- Component bundling geared towards garage, repair shop and customer requirements
- Time-saving: no additional procurement channels
- High degree of customer satisfaction

ALWAYS UP-TO-DATE:
BENEFIT FROM THE CONTINUOUS EXPANSION
OF OUR RANGE OF PRODUCTS AND KITS.

TAKE ADVANTAGE OF THE SUCCESS TREND

ON THE ROAD TO SUCCESS AROUND THE WORLD: CHAIN DRIVES FROM RUVILLE.

The trend is clearly evident: Today, about half of the vehicles in Europe, Japan and the USA are equipped with chain drives. Take advantage of this trend and offer your customers reliable, high-quality chain drive components. Rely on complete kits

from RUVILLE to prevent costly consequential damage and boost the level of satisfaction among garages, auto repair shop operators and your customers.
